## The Legacy of the Sagle Family in Canada

By Don Sagle

## DEDICATION

To the generations who came before us, whose quiet lives of work and faith laid out the foundations we stand on today — and to those who will carry the Sagle name forward, may you do so with kindness, humility, and courage.

Especially I want to dedicate this book to my father Edgar Sagle who has spent half a century gathering all he could about our family. It is his example that motivates me to keep researching.

Special thanks to my wife Jenn for acting as an editor, and Steve Marshall who used his extensive research skills to break through the wall and find our origin story.

## Preface — Why This Story Matters

This book was written not to preserve fame, nor to elevate any single life above another, but to ensure that ordinary men and women — whose labor, faith, and generosity helped build communities — are not forgotten.

For as long as memory reaches, I have carried a quiet curiosity about where we began. As a child, I would ask my father about the origins of the Sagle family, about the people who came before us, and the places they once called home. The answer was always certain and reassuring: we were Canadian and had been for generations.

With time, that certainty turned into a question. We traced our family line back five generations, each discovery deepening our sense of belonging, yet the trail eventually ended in silence. Beyond that point was an unanswered chapter of the first Canadian generation whose story remained just out of reach. The question lingered: where did they come from, and how did our name first take root in Canada?

In the summer of 2025, that silence was finally broken. What had once been a wall became a doorway. Through patient searching and the uncovering of long hidden records, I was able to see, at last, where our family's story entered this country—how the Sagle name arrived, and the deeper origins from which it emerged.

The Sagle family story is one of movements rather than fortune, of service rather than power. From the hills of northern Germany to the forests of Manitoulin Island, generation after generation lived with quiet determination, working land, raising families, and blessing those around them.

# PART I — THE STORY

## Chapter 1 — Waltringhausen: Where the Name Took Root

Our family story begins far from the shores of Manitoulin Island, in a small village nestled among the rolling hills and forests of northern Germany. Waltringhausen lay within the Schaumburg region west of Hanover, a land shaped by agriculture, quiet faith, and generations who lived close to the soil.

In the mid-18th century, Waltringhausen was a village of farmers and tradesmen. Life followed the rhythm of seasons rather than empire, and the Lutheran church stood at the center of daily life. It was here, on August 23, 1752, that Johann Heinrich Seger was born — into a world of duty, land, and belief.

No one in Waltringhausen could have imagined how far the Seger name

would travel, or that it would one day become Sagle. Yet history has a way of reaching even the quietest places, setting ordinary lives on extraordinary paths.

## A Soldier Far From Home: The Hessian Years

As a young man, Johann Heinrich Seger entered military service during a period when the German states were deeply entangled in European power politics. Like many families in Hesse-Kassel, the Segers lived under a system where military service was not uncommon. Some young men enlisted for pay, others for opportunity, and many because there were few alternatives available to them.

Heinrich became a soldier in the Von Lossberg Regiment, one of the Hessian units hired by the British Crown during the American Revolutionary War (1775–1783). These regiments were trained professional soldiers, not volunteers driven by ideology, and their role was defined by treaty obligations between rulers rather than personal allegiance to the conflict itself.

In 1776, Heinrich left Germany as part of a long march from Rinteln to the port of Lehe, covering roughly 120 miles. From there, he crossed the Atlantic into a world he had never seen and could not have imagined. The journey alone was dangerous, crowded, and uncertain, and it marked the beginning of seven years that would radically reshape his life.

The regiment arrived in New York, landing at Sandy Hook. Within months, Heinrich found himself engaged in major battles of the war, including White Plains and the attack on Fort Washington. These early engagements were brutal and disorienting for European soldiers unfamiliar with the terrain and style of fighting.

By late 1776, Heinrich's regiment was stationed in Trenton, New Jersey, under Colonel Rall. On December 26, George Washington launched his famous surprise attack. The result was catastrophic: the regiment was largely destroyed or captured. Only a small fraction of the men eventually made their way back to British lines. Heinrich survived, though part of his service included time as a prisoner of war.

The years that followed were marked by constant movement. Survivors were reorganized into combined regiments and fought in additional campaigns, including Brandywine, Germantown, and Monmouth. Heinrich later served on Rhode Island, participated in the Battle of Rhode Island, and endured extended periods of garrison duty.

In 1779, Heinrich was part of a failed expedition to Canada. A hurricane struck the fleet en route, sinking one ship entirely and forcing others to

return to New York. When Heinrich finally reached Quebec in 1780, he spent the remainder of the war on garrison duty at Beauport and the Plains of Abraham.

When the regiment returned to Germany in 1783, Heinrich was not aboard.

## The Choice That Changed Everything

When the Revolutionary War ended, Hessian soldiers were expected to return home. Many did, rejoining families they had not seen in nearly a decade. Heinrich Seger did not.

The reasons behind his decision can only be inferred, but the context is clear. In Canada, land was available to those who had served. The rigid social hierarchies of Europe softened in the New World. There was opportunity for a man willing to work, and the promise of independence impossible to achieve in the crowded villages of Hesse-Kassel.

Heinrich settled first in the Cornwall area along the St. Lawrence River, where former soldiers and Loyalists were granted land. This decision—quiet, practical, and largely undocumented—had consequences that continue to echo through every generation that followed.

Location of Cornwall and St. Regis

By choosing to stay, Heinrich severed his formal ties to Germany and planted new roots in North America. The Seger family ceased to be European peasants living under feudal obligation and instead became settlers in a land still in the process of being formed.

This was not a moment of triumph or celebration. It was a moment of resolve.

# Chapter 4

## Faith, Complication, and Courage: Heinrich & Suzanne

In Lower Canada, Heinrich met **Marie Suzanne Taillon**, a French-Canadian woman born in Montréal in 1763. She came from a deeply rooted Catholic family whose ancestry stretched back to the early years of New France.

(AI generated portrait of what she may have looked like in her early 20's circa 1780)

Their relationship represented a blending of cultures that defined early Canada: German and French, Lutheran and Catholic, Old-World traditions and frontier realities. Yet their union was not simple.

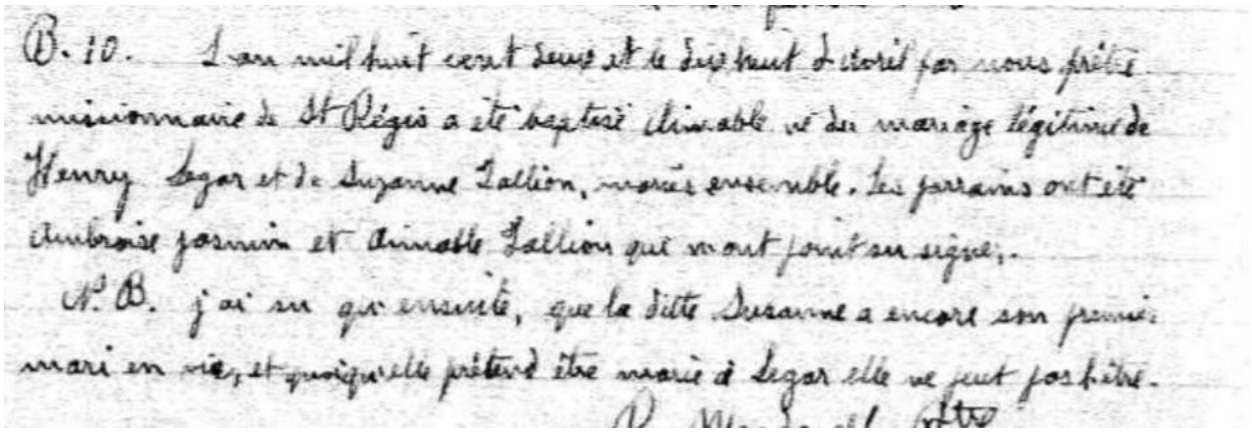
Church records indicate that Suzanne's **first husband was still alive**, which meant she could not legally remarry under Catholic law. Divorce was not permitted. As a result, her relationship with Heinrich existed largely outside official recognition, and surviving baptismal records suggest their children were born under circumstances that placed her at odds with her church community.

The social consequences were real. Suzanne appears in very few church records after this point, and it is likely that this rupture with religious authorities contributed to the family's eventual move away from French-Catholic centers into English-speaking Upper Canada.

What cannot be known fully is the personal cost Suzanne paid. Leaving a first husband, especially with children, would have carried stigma. At least one earlier child, **Marie-Joseph Garant**, remained alive, while other children disappear from the record and are presumed to have died young.

Despite these hardships, Heinrich and Suzanne built a life together. Their relationship was sustained not by institutional approval, but by commitment, labour, and shared purpose.

Starting In 1796, the couple started their family life together. This union represented the merging of two cultural streams that would define the Canadian Sagle family.



B. 10. L'an mil huit cent deux et le dix huit d'avril par nous prêtre missionnaire de St Régis a été baptisé Abinable né du mariage légitime de Henry Segar et de Suzanne Taillon, mariés ensemble. Les parrains ont été Ambroise Jourdain et Animable Taillon qui ont joint un signe.

N. B. j'ai su qu'ensuite, que la ditte Suzanne a encore son premier mari en vie, et quoiqu'elle prétend être mariée à Segar elle ne peut pas l'être.

This is one of 2 church records that I have found that links the 2 people listed as Henry Segar and Suzanne Taillon. It is from in 1802 as husband and wife at the baptism of their daughter who later became known as Abigail in St-Regis Quebec (Akwesasne)

(AI generated portraits of Henry and Suzanne around about 1795 well before photography)

# Chapter 5

## From Seger to Sagle: Becoming Canadian

Over time, the family name evolved. In German parish records it appeared as **Seger**, pronounced with a soft "z" sound. In North America, English-speaking clerks wrote names phonetically, often recording what they heard rather than what had been written before.

In Waltringhausen, Hesse-Kassel, the name Seger would have been pronounced ZAY-ger or ZEE-ger.

As the family moved through St. Regis, Stormont, and eventually King Township, pronunciation slowly shifted. English accents softened the ending –ger, and the spoken form "SAY-ger" became closer to "SAY-gr." Said quickly, this sounded very much like:

"SAY-gle."

Clerks, hearing this softened form, wrote it as:

Sagle

This transformation was neither unusual nor unique. Similar German names followed the same phonetic path—for example, Wagner → Wagle and Krieger → Kragle in various Ontario and New York records.

This evolution reflected adaptation rather than abandonment. The meaning of the name—associated with blessing, success, and protection—remained embedded in how the family lived. By the mid-1800s, **Sagle** became the standardized spelling as record-keeping practices became more formal.

Far from erasing the past, the new spelling marked the name's transformation into its Canadian form.

# Chapter 6

## King Township: Building a Family Line

By the early 1800s, Heinrich and Suzanne's descendants had moved into **King Township**, north of Toronto. Here, **Peter (James) Sagle**, born in 1801 back in St-Regis Quebec, became the family's direct ancestral link. Although Peter was not the first son at the time of Henry's death, his oldest son Henry had already started his own farm. Peter, his only other son, inherited the farm in King Township.

(Peter Sagle (1801-1882) AI generated)

Peter married **Abigail Morris** around 1830. Together they raised a large family under pioneer conditions. Abigail died in 1855 at just forty-four years old—an all-too-common fate for women whose bodies bore the burden of repeated childbirth in an era before modern medicine. Abigail was likely able to see the marriage of her first 3 children prior to her passing. Her first child, a boy named Thomas, is my direct ancestor.

(Abigail Morris circa 1830 AI generated)

Peter married again and ultimately raised **fourteen children**. His life was not exceptional in the way history often defines importance. Yet it was lives like his—marked by endurance, faith, and daily labour—that formed the foundation of settlement in Upper Canada. He and his family farmed, raised children, and passed along values that would carry forward through generations.

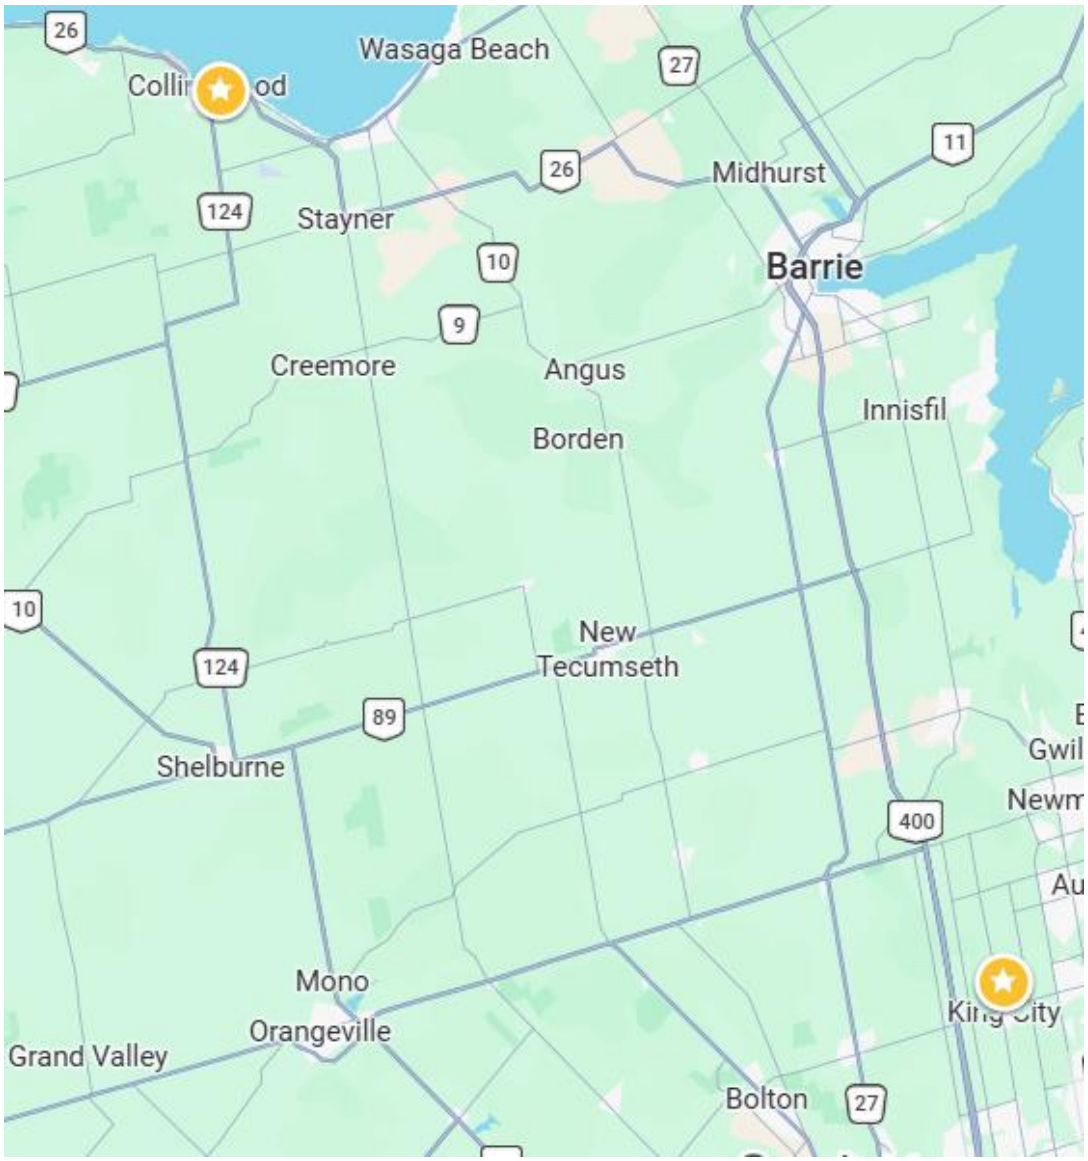
## Northward Again: Pioneers of Manitoulin Island

Peter's eldest son, **Thomas Sagle**, inherited the restlessness common to pioneer families. Born in 1832, Thomas married **Elizabeth Rhyndress** and began their life together farming in Osprey Township. Elizabeth is listed as German on census records but many of her family roots come from the Netherlands.



Thomas and Elizabeth moved three times that we know about from King to Osprey then to Assiginack township on Manitoulin

In **1879**, they made a decisive move north to **Manitoulin Island**, arriving with seven children. Two others had already died in infancy. They joined the early settlers of **Assiginack Township**, clearing land, building homesteads, and transforming forests into farmland.

(AI generated from a blurry image of a broche worn by his wife after his death)

Thomas died in 1897 after nearly two decades of hard physical labour. Elizabeth lived another twenty-seven years, remembered affectionately as **"Smoking Granny"**, often pictured with her corncob pipe, dark clothing and a brooch bearing Thomas's image.

Their legacy was not measured in wealth, but in endurance.

## David John Sagle: A Life That Blessed Others

Sagle Homestead Church Road

(AI generated wedding photo of David and Annie 1890 from blurred actual picture)

Among Thomas and Elizabeth's children, **David John Sagle** stands out as a figure whose life shaped both family and community.

David married **Annie Isabella Sim** in 1890 and farmed the homestead on Church Road. His work extended beyond his own household. He helped organize the first schoolhouse so children

would have access to education. When a church was needed, he donated land for the **Reorganized Church of Jesus Christ of Latter-Day Saints**, providing a spiritual center for generations.

(AI enhancement of actual portrait of David and Annie circa 1924)

One story passed down through neighbors tells of a winter when families were starving. David loaded his sleigh with food and went to the rescue.

He lived his faith not through words, but through action. What do we know about Gramma Annie? She was a woman of faith who had a Scottish accent. After her children were raised, she raised her grandson Johnny Bryant and was a pillar to all her posterity.

## Carrying the Legacy Forward

The legacy of the Sagle family is not found in monuments or titles. It is found in patterns of living: work done faithfully; neighbors helped quietly, land shared generously, and faith practiced without display.

Each generation adapted to its circumstances yet carried forward the same core values. From Waltringhausen to Assiginack, the story is one of ordinary people living lives that mattered.

This is the inheritance left behind—not just a name, but a way of being in the world.

PART II — THE FAMILY RECORD

The following appendices preserve the detailed genealogical record of the Sagle family. Content is organized here for reference.

# REASON TO DISTRUST SLEIGHS AND HORSES

## Myles Sagle Tried Them Twice and Had Two Accidents

LITTLE CURRENT, Ont., April 6. —CP)—Myles Sagle has good reason to distrust sleighs and horses. While sitting on the front bob of his sleigh here, he caught his foot in a loop of wire frozen to the ground and fractured his leg at the ankle. After travelling by train to Espanola for hospital treatment, Sagle boarded another sleigh at Espanola station. The team bolted and upset the improvised ambulance, throwing the patient out. The horses continued their mad dash through the service doors of the Espanola garage, knocking down Florence Whissell. They were caught by Joe Whissell, unaware his daughter had been injured.

Mr. Sagle continued his journey to the hospital in a truck.

About the author.

Don Sagle is the second son of Ed and Shirley Sagle and 7th generation Canadian Sagle (origin Seger) 10+ Generation Canadian from our French-Canadian roots. I am married to my loving wife Jennifer and we have 4 children. I live in Sudbury, Ontario. I have a passion for all things, family history, and love finding out details of stories, not just names and places. I hope you enjoyed reviewing this book and perhaps learned a little more about our family history.

The image on cover is a silhouette of famous (at least in the John Sagle family) Sagle tree which stands across the road from the home of my grandparents. The tree is visible from a long distance away because it appears to be on the road from a distance. It is at the top of the hill and what used to be the corner of the David John Sagle Homestead property. Over time the shape of the branches has changed slightly but for a long period of time they appeared like a large S with the branches extending to the right on the top and to the left on the bottom. The tree was a recognizable symbol when we turned onto Church Road; we knew that we were on Granny's road.
